Date for next assessment

NOT PROTECTIVELY MARKED

NOT PROTECTIVELY MARKED

Where risks are assessed as requiring additional controls, the following action plan should be used to manage the process:

| ACTION PLAN FOR FURTHER CONTROLS | | |
|---|----------|-------|
| What is required? | By whom? | When? |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |

Action timescales depend on levels of risk – so far as is reasonably practicable – the greater the risk the sooner the action must be taken

| PLAN FOR ACTIVE MONITORING (for low and medium risks only) | | |
|---|---------------|-----------|
| Control Measure | How monitored | How often |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |

In order to ensure that work continues to be safe, the control measures identified in the risk assessment must be implemented and maintained. The following checklist should be used to highlight how controls will be checked

| DETAILS OF REVIEW | | | |
|--------------------------|----------|-------------|-----------|
| Date of Review | Findings | Reviewed by | Signature |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |

Risk assessments must be reviewed following any significant change if there is any reason to suspect that the assessment is no longer valid **and at least annually**. The results of reviews are to be recorded below:
