

PNC Service Matrix - PNC Extracts/Downloads

**VE502 Vehicles Checklist Report.** Provides the Force with a list of their vehicle reports and, if appropriate, vehicle descriptions. The checklist can be requested to show reports for the whole of a force, or for specified force/station codes. This job produces AUDIT or FULL prints for any of the run types listed below. Up to 6 individual force/station can be specified. The Run types are: COR - Correction; DES - Destroyed; FOU - Found; INF - Information; LOS - Lost/Stolen; REM - Removed; RES - Restricted; SEE - Seen/Checklist; ACT - Action; REA - Reaction. Output from this job can be emailed/FTP.

**VE503 Vehicle Theft/Recovery Notifications.** This process notifies the recipient organisation of thefts and recoveries of vehicles. Run daily on Mondays to Fridays. Output is via zipped e-mail. It also produces a statistics page for PNCS use. Data Fields included:

- Vehicle Registration Mark;
- Vehicle Identification Number;
- Date of Theft;
- Force Code;
- Make and Model;
- Transcript (added or deleted).

Fields Included: - Plant Type;

- Property ID;
- Manufacturer Number;
- Fleet Number;
- Engine;
- Item - Make;
- Plant - Type;
- Item - Model;
- Item - Colour;
- Property Description Created;
- Force Station Owner;
- Force Station Creator;
- Capacity;
- Report;
- Property - Report Type;
- Early Incident Date;
- Late Incident Date;
- Property Report Created;
- Station Name;
- Address;
- Telephone Number
