Boris Johnson campaign and column

Is there a conflict of interest having him write and be a politician campaigning?

It is for this reason, to stop any such conflict, that Boris won't be writing for us while he is campaigning to be Mayor of London. Boris is taking a sabbatical until the *election is over*.

What is happening to Boris Johnson's column?

Boris is taking a sabbatical until the election is over. His last column before he departs will be this Thursday (10th Jan). Of course our readers will miss Boris as he has been with the paper for over 10 years, but we will have a range of other Telegraph star writers writing on a Thursday instead.

What if he wins? Will you have the Mayor of London writing for your paper? Is that right?

I do not think it is helpful to speculate about what the people of London will decide. But of course we will have to review what happens in the future in the light of the election result.

What if he does not win?

As I said, I do not think it is helpful to speculate about what the people of London will decide. But of course we will have to review what happens in the future in the light of the election result.

Is he being paid for his sabbatical?

I'm afraid I am not going to comment on contractual and financial matters regarding Telegraph staff. But I can confirm he won't be paid while he is on sabbatical.

As per our conversation, could you provide for a bonus for Boris in 07's numbers (subject to the final profit outturn) equivalent to the money between now and his return to writing his column probably in June 08 after his mayoral campaign. I acknowledge that this is outside the forecast you provided us before Xmas.

Thanks
