

Short Statement to read my James Watson

Given that the Inquiry is looking into the media and ethics and complaint procedure of the Press Complain Commission, we strongly feel the PCC is paid for by the newspapers who published false, grossly misleading articles about the events leading up to our dear murdered daughter Diane, which added to our family's unbearable pain and anguish.

Sadly, the malicious falsehoods published as fact were too much for our son Alan, who died with these articles in his hand. We feel that the PCC should be replaced by a completely independent body or tribunal who will go over the complaints evidence in person.
